

清华大学 人工智能学院

College of AI, Tsinghua University

WE ARE HIRING

Full-time Faculty

The College of AI at Tsinghua University launched in 2024 under the leadership of Turing Award laureate Andrew Chi-Chih Yao—is recruiting full-time faculty across all areas of AI. Our mission is to push the frontiers of AI Core (foundations) and catalyze AI+ interdisciplinary breakthroughs that matter for science and society.

What you'll do

Lead an independent research program, teach and mentor outstanding students, and help build world-class teams powered by strong start-up and computational support.

What we're looking for

A Ph.D. in CS/AI or related field, a track record of impactful research, and the potential to lead at the disciplinary frontier—with a genuine commitment to teaching and community.

What we offer

- Internationally competitive compensation and substantial start-up resources
- Robust compute and research support; two university-funded Ph.D. slots per year
- Comprehensive relocation benefits and family support (housing/education)
- An international recruitment, management, and promotion system

How to apply

If this sounds like your next chapter, send a CV and application letter (English or Chinese) to airecruit@tsinghua.edu.cn with the subject line “CollegeAI Faculty Application – [Your Name]”.
